STATEMENT OF INVESTMENT POLICY Spokane Employees' Retirement System

Date Approved: March 3, 2021

POLICY OVERVIEW

The Board ("Board") of the Spokane Employees' Retirement System ("SERS") hereby establishes this Statement of Investment Policy ("IPS") for the investment, in accordance with applicable federal, state and municipal laws and regulations, of SERS assets ("Fund"). This IPS defines the investment policies for the management and oversight of the Fund for SERS.

The guiding principles with respect to the investment of the Fund are to preserve the ability for the Fund to meet its long-term liabilities within prudent risk parameters. Toward that end, the Fund has established the following goals:

- 1) Accumulate sufficient assets through a diversified portfolio of investments to pay all current and future retirement benefits and expense obligations of the Fund.
- 2) Establish an asset allocation policy that is expected to meet the required rate of return over long periods of time while minimizing volatility.
- 3) Minimize the costs associated with implementation of the asset allocation through the efficient use of resources.
- 4) Operate solely in the interest of the participants and beneficiaries and for the exclusive purpose of providing benefits to the participants and their beneficiaries and defraying reasonable expenses of administration.
- 5) Seek investment returns and funding policies that will allow for ad hoc increases in retirees' annuities so as to maintain the purchasing power of their benefit.

ROLES AND RESPONSIBILITIES

The Board, as a fiduciary, is responsible for establishing the IPS, reviewing the IPS as required, and making changes as necessary. The Board is also responsible for selecting and monitoring the investment consultant, investment managers, custodian, auditor, actuary and any other service providers necessary in the fulfillment of this policy and the Fund objectives. Responsibility for day-to-day administration and implementation related to the IPS may be delegated to the Chief Investment Officer (CIO) and/or other SERS staff. Responsibilities of the CIO (and/or SERS staff at the direction of the CIO) include:

- 1) Implementation of the Fund's investment goals, objectives and policies.
- 2) Due diligence, monitoring, and contracting of the Fund's investment managers.
- 3) Due diligence, monitoring, and contracting of the Fund's service providers.

- 4) Make buy/sell decisions to provide for regular liquidity requirements and rebalancing within the asset allocation guidelines.
 - a. The Board will be notified in advance of all transactions. The transaction will be considered approved if the Board does not object to the proposed transaction within one business day.
- 5) Monitoring and evaluating performance results to assure that the policy guidelines are being met.

The Board and staff may also delegate certain responsibilities to professional service providers in various fields. These experts include:

- Investment Consultant. The investment consultant will assist in: 1) establishing investment policy; 2) designing objectives and guidelines; 3) selecting investment managers; 4) reviewing such managers over time; 5) measuring and evaluating investment performance; and, 6) other tasks as deemed appropriate. It is expected that the investment consultant will be selected by the Board and will serve as a co-fiduciary on all investment related decisions and will have the proper insurance to cover exposure.
- 2) <u>Investment Managers.</u> An investment manager has discretion to purchase, sell and/or hold the specific securities that will be used to meet the Fund's investment objectives while observing and operating within all policies, guidelines, constraints, and philosophies as outlined in this statement and in their specific manager guidelines.
- 3) <u>Custodian.</u> The custodian will maintain possession of securities owned by the Fund, collect dividend and interest payments, redeem maturing securities, and effect receipt and delivery following purchases and sales. The custodian will also perform regular accounting of all assets owned, purchased, or sold, as well as movement of assets into and out of the Fund accounts. The custodian will provide at a minimum monthly reporting of assets and transactions and provide any additional data requests.
- 4) <u>Auditor.</u> The auditor will provide an annual review the Fund's books and records, accounting policies, and internal controls to provide an opinion that the financial statements are presented fairly and without material misstatement.
- 5) <u>Actuary.</u> The actuary will provide an annual valuation of the Fund's total pension liability based on the actuarial assumptions approved by the Board.
- 6) **Other.** Additional specialists may be employed to assist in meeting its responsibilities and obligations to administer Fund assets prudently.

Board and staff do not maintain any control over the individual investment decisions made by the investment managers. The investment managers will be held responsible and accountable to achieve the objectives outlined in their specific investment guidelines as provided in the agreement, prospectus or other such documentation.

All expenses for such experts must be customary and reasonable, and will be borne by the Fund as deemed appropriate and necessary.

INVESTMENT OBJECTIVE

The investment strategy of the Fund has been established to emphasize total return; that is, the aggregate return from capital appreciation, dividend and interest income, net of any investment management fees. The Fund currently has a long term actuarial expected rate of return of 7.50%. In consideration of this expected return, the primary investment management objectives for the Fund assets shall be to maximize total return over time at an acceptable level of risk and to provide relatively smooth and predictable distributions to the beneficiaries. Additionally, the Fund will be invested according to the following general principles:

- Investments shall be made solely in the interest of and for the beneficiaries of the Fund;
- Investment of the Fund shall be diversified as to minimize the risk of large losses, unless under the circumstances it is prudent not to do so;
- Risk shall be evaluated in the context of the portfolio in its entirety with particular focus on how the various asset classes and investment strategies correlate to one another;
- Care will be taken to provide adequate liquidity to meet all current spending obligations of the Fund;
- Cash is to be employed productively at all times, to provide safety, liquidity, and return;
- The investment manager(s) should, at all times, be guided by the principles of "best price and execution" and that the Fund's best interests are the primary consideration.
- Investment management fees shall be reasonable. Fees should be minimized unless additional fees are expected to generate additional returns in excess of the additional fees or to provide additional diversification unavailable in a low-cost, passive investment.

ASSET ALLOCATION GUIDELINES

To achieve its investment objectives, the Fund will be allocated among a number of asset classes. These asset classes may be broadly defined to include capital preservation, domestic equities, international equities, long biased, opportunistic credit, real estate and special opportunities. The purpose of allocating across these asset classes is to ensure the proper level of diversification within the Fund and improve the risk-adjusted efficiency of the investment portfolio. The following table outlines the Fund's target asset allocation along with standard minimum and maximum allocation rebalancing guidelines. Allocations in excess of the standard minimum or maximum require Board approval.

Asset Class	<u>Minimum</u>	<u>Target</u>	<u>Maximum</u>
Capital Preservation	20%	23%	26%
Cash	0%	0%	2%
Total Return Bond	8%	10%	12%

Long Biased	4%	7%	10%
Opportunistic Credit	4%	7%	10%
Real Estate	6%	9%	12%
Special Opportunities*	0%	0%	10%

* Special Opportunities

This asset class is designed to allow the committee to pursue unique investment opportunities that may fall outside of current asset class descriptions. These opportunities are generally defined by higher expected return potential relative to broad public equity markets. However, they may also include opportunities expected to provide equity-like returns with significantly less risk. Given the variable nature of this opportunity set, the asset class retains a target allocation of 0%, but may be implemented at the discretion of the Board as opportunities present themselves. Funding for the asset class will generally be redirected from the broad public equity allocation.

REBALANCING OF FUND ASSETS

The asset allocation exposures will be closely monitored with the understanding that the various asset classes may perform differently and that the relative attractiveness of asset classes may vary over time. The Fund's allocation will be reviewed at each Board meeting, as well as during periods of severe market change to assure that allocations remain within their respective guidelines and consistent with the long-term objective of the Fund. If an asset class

is outside the allowable range, the Board, or its designee, may take appropriate action to redeploy assets. In any investment rebalancing situation the Board, or its designee, will consider market conditions, costs and other investment related factors. In certain circumstances, when appropriate and at the Board's discretion, the Fund may be allocated outside the ranges provided in the guidelines.

INVESTMENT PERFORMANCE REVIEW AND EVALUATION

Performance reports shall be compiled at least quarterly and presented to the Board for review. The investment performance of the total Fund, as well as the asset class components, will be measured against commonly accepted performance benchmarks. Consideration shall be given to the extent to which the investment results are consistent with the investment objectives, goals, and guidelines as set forth in this statement. The Board recognizes the long term nature of the Fund's objectives and the variability of market returns. Periodic underperformance relative to any criteria outlined in this IPS will not necessitate the termination of an investment option.

As referenced above, the Fund's total account performance objective is to achieve the longterm actuarial rate of return and to minimize the risk of failing to meet this expected return. To that end, managers have been selected based on their perceived ability to meet and or exceed predetermined benchmarks.

The total return of the Fund will be measured against a passive policy index of comparable risk comprised as follows:

Additionally, the Board shall compare the performance of each individual investment alternative against the performance of the peer groups, relevant index benchmarks, and the manager's strategic benchmark if it differs from the relevant benchmark. The Board shall track the investment vehicle's performance relative to its benchmark(s), and the degree to which variance in the vehicle's performance can be explained by variance in the performance of the benchmark(s). Initially, indices used for comparison purposes shall include the following:

Notwithstanding this initial designation, the Board may change indices used for comparison if it is determined that a different index provides a more useful or appropriate benchmark for any designated investment vehicle.

If the net of fee performance of an actively managed investment option lags significantly behind that of the representative benchmark index over a trailing five year period and the option's performance places it significantly below category averages, the Board may designate the option as "on watch" and, in so doing, shall endeavor to investigate why the option's relative performance has lagged; and determine whether the option continues to be an appropriate investment for the Fund.

If a statistical analysis of an indexed/passively managed investment option indicates that the option is not performing similarly to its benchmark, the Board may designate the option as "on watch" and, in so doing, shall endeavor to investigate why the invest performance has varied from the benchmark; and determine whether the option continues to be an appropriate investment for the Fund.

In addition to net investment performance, the Board will also review the investment products' risk characteristics in relation to that performance. Risk will be measured in various ways including, but not limited to:

- Standard deviation
- Risk/return ratios such as Sharp or Treynor Ratios
- Up market and down market performance
- Other statistical measures such as Beta and Alpha
- Style drift

The investment options will also be monitored on an ongoing basis for material changes such as personnel departures, research capability adjustments, organizational changes, or alterations in investment style, philosophy, or strategy, as well as adherence to stated guidelines.

MANAGER SELECTION

To facilitate the Board's manager selection decisions, the Consultant and Staff will present a formal search, with recommendations, for all new and replacement investment managers or funds. Initial due diligence should include a review of the investment philosophy, process, team, and performance record. Risks posed by a concentrated exposure to a single investment manager or co-investor will also be evaluated. Additional due diligence should be conducted for investments in new asset classes, firms with limited track records, or limited partnerships to evaluate any idiosyncratic risks the investment may pose, which may include interviewing key personnel, legal review, and on-site due diligence.

INVESTMENT POLICY REVIEW

To assure continued relevance of the guidelines, objectives, financial status and capital market expectations as established in this statement of investment policy, the Board will review the IPS annually, or more frequently if conditions warrant.

Death information provided to the Board for review.

Schedule of Investments – December 2020

The monthly investment report was presented to the Board for review. The estimated market value of the SERS portfolio on December 31, 2020 was \$332 million with an estimated rate of return of 2.1% for the month.

Monthly Cash Reconciliation

The monthly cash reconciliation report was presented to provide the Board with additional insight into the ongoing liquidity, transactions, and cash position of the plan.

Other Business – Investment Advisory Committee Report

Mr. Tencick presented the minutes from the Investment Advisory Committee who met on January 26, 2021.

Other Business – Voluntary Retirement Incentive Program Update

Mr. Tencick met with representatives from Human Resources, Civil Service and Legal to discuss a possible Voluntary Retirement Incentive Program. The group recommended not to offer a voluntary retirement incentive for this year. There was not a compelling financial reason and the exposure of mass retirements within a department was too great.

Absolute Return Primer

Mr. Tencick led a presentation on the Absolute Return asset class. The various strategies that are included in the asset class were presented as well as the major risks inherent to each strategy.

Mr. Tencick also led a brief presentation about GameStop. A timeline of the events and the key market factors that contributed to the price volatility were presented.

Upcoming Board Election

Jim Tieken's term on the Board runs through July 4, 2021.

There being no other business, the meeting adjourned at 2:10 p.m.
