.. ..

The monthly cash reconciliation report was presented to provide the Board with additional insight into the ongoing liquidity, transactions, and cash position of the plan.

2022 Investment Outlook Review

Mr. Tencick led a presentation on the 2022 Investment Outlook. Predictions from 2021 proved to be fairly accurate at a high level, but less accurate at a tactical level. The consensus predictions for 2022 include strong economic growth, Fed intervention to address inflation, and challenging markets. Additionally, long term return estimates have decreased significantly in the past two years.

OrbiMed Partners Redemption

Mr. Tencick reviewed with the Board the letter from Hyas that was included in the packet.

Joe Cavanaugh moved and Brian Brill seconded the recommendation from Hyas to liquidate the position on OrbiMed Partners II due to higher volatility and underperformance. The motion passed unanimously.

Other Business

Joe Cavanaugh has had several employees inquire about the recent contribution rate change. He requested if Staff could prepare a history of the Plan with emphasis on the last 20 - 30 years. Ms. Shisler suggested the information could be included with the annual contribution statement that is sent out at the end of January. Discussion ensued and the topic will be discussed further at the next meeting.

Joe Cavanaugh moved and Brian Brill seconded the motion to adjourn the meeting.

The meeting adjourned at 1:52 p.m.

Phillip Tencick, Retirement Director

Spokane Employees' Retirement System (SERS) Investment Advisory Committee Minutes January 19, 2022

The Investment Advisory Committee (IAC) meeting was called to order at 1:00 pm on January 19, 2022 via WebEx. The committee met in accordance with Washington State RCW 35.39.080 and .090 and submits the following report.

- **Present:** Brian Brill, Gene Fitzpatrick, Phillip Tencick, and Tonya Wallace
- Guests: Jayson Davidson and Tom Breaden from Hyas Group

2021 Market Update

Mr. Davidson reviewed broad economic data and the major market indices for the fourth quarter and full year of 2021. The US economy showed persistent strong growth following a turbulent 2020, with GDP and unemployment returning to pre-pandemic levels. Corporate earnings growth fueled another year of strong equity returns in the US, while international markets lagged due to greater restrictions to contain COVID. By the end of the year, inflation concerns grew as supply related price increases proved to be more long lasting than transitory. Additionally, interest rates rose as the Fed indicated rate increases are likely in 2022 and supportive bond buying will wane.

Mr. Davidson highlighted the investment activities from 2021:
