#### Reams (Scout) Core Bond

**Differentiating Factor:** Reams believes in investing conservatively and is more concerned with avoiding losses than chasing yield. Outperformance comes from patience, prudence and risk management.

Style: Value based, with process favoring lower volatility names; Separate account offered

#### Strengths:

- Conservative philosophy stems losses, providing the desired diversification versus more volatile asset classes, even at the risk of underperforming their index.
- Strongest portfolio risk management approach.
- Focuses on fixed income only and targets institutional investors, providing greater stability.

#### Risks:

- Noticed some inconsistency with philosophy and security selection surround energy and commodity issuers, resulting in large write-downs as names fell below investment grade.
- Process relies heavily on proprietary inflation estimate to set macro-themes. To the extent that the
  inflation estimates vary from consensus and actual inflation, there are two inflation related-factors
  that contribute to relative performance.

#### **Sterling Capital Total Return**

**Differentiating Factor:** Core-only manager that balances macro/strategic positioning with strong fundamental credit analysis

Style: Core-balanced, offering separate account

#### Strengths:

- Greatest emphasis on security selection and fundamental research, with best understanding of risk contribution.
- Flexible approach to top-down management of duration and yield curve to take advantage of varying market positions and measures attribution of strategy vs. execution to affirm thesis.
- True core manager. An "unconstrained" mandate would allow greater flexibility on yield curve and duration variance, not adding risk from non-index issuances.

#### Risks:

- Majority of fixed income AUM in shorter duration portfolios, which may result in greater focus on shorter term market bias
- Currently manages \$7.0M Mid Cap Value mandate, providing more firm risk than other options, albeit at an acceptable level.

#### **TCW Core Bond**

**Differentiating Factor:** Large, actively managed strategy predicated on long-term valuations that revert to the mean

Style: Value biased, mutual fund

#### Strengths:

- Continuity of team, with key members working together for past 25 years
- Largest resource pool of 55 investment professionals
- Fixed income specialists, 83% of \$194.6B total AUM in US Fixed Income, of which \$120.6B in core and core-plus strategies

#### Risks:

- Team moved from MetWest in 2009, replacing legacy team in a public and ugly ouster. The strategy's track long-term record does not reflect current team's performance.
- Team moved from managing \$2B to \$120B in strategy, which requires larger issuances and lower conviction positions. Scalability of strategy is not fully proven in track record.
- Unclear exactly who is making final security selection decisions. Generalist portfolio managers develop macro factors and oversee trades, but specialist portfolio managers manage execution.
- Firm owned by Carlyle (private equity fund), which will require an exit at some point.

#### **Vanguard Total Bond Index**

**Differentiating Factor:** Passive fund that tries to replicate the index at lowest possible cost

**Style:** Passive, mutual fund

#### Strengths:

- Lowest cost alternative
- Index has outperformed peer group over 1-, 3-, 5-, and 10-years, suggesting median manager likely to underperform index

#### Risks:

- Does not implement any credit research, duration management
- The Index is not fully replicable, requiring the use of sampling methodologies to achieve index-like returns. Sampling errors may result in some deviation from index.

#### **Overall**

**Summary:** The above median performance of the Vanguard's passive investment option demonstrates that it is difficult to pick an investment manager that will add alpha in the long term. Varied market conditions over the past ten-years separates the managers whose strategies perform across a variety of conditions from those that perform well in limited portions of a cycle and tread water (or worse) during the rest of the cycle. Sterling's strategy provides the flexibility to adapt to changes in the fixed income markets more than the alternatives.

Portfolio Construction: Currently, Vanguard's Short Duration fund is our sole manager for the Core Fixed Income allocation. The short duration mandate is in place as a hedge against rising interest rates, which have yet to materialize. Additionally, the Plan is underweight Core Fixed Income and overweight Absolute Return to try and hedge against rising interest rates. These two tactical moves have contributed to recent underperfomance versus the policy benchmark. By selecting an active Core Fixed Income manager, the Plan would allow the manager to make the duration adjustments to take advantage of any further interest rate declines and hedge against rate rises based on their market views. This is a more precise methodology to manage duration risk than is currently in place. In the long-term, interest rates are still forecast to rise, warranting the overweight to Absolute Return, but short-term uncertainty is great enough that it is more prudent not to compound this investment thesis by also utilizing a short duration manager in the Core Fixed Income portfolio.

#### **Recommendation:**

- 1) Terminate Vanguard Short Duration as our Core Fixed Income manager pending selection and implementation of its replacement.
- 2) Select Sterling Capital's Total Return strategy as the new Core Fixed Income manager to be transitioned as soon as feasible.

#### STATEMENT OF INVESTMENT POLICY

#### Spokane Employees' Retirement System

Date Approved: August 31, 2016

#### **POLICY OVERVIEW**

The Board ("Board") of the Spokane Employees' Retirement System ("SERS") hereby establishes this Statement of Investment Policy ("IPS") for the investment, in accordance with applicable federal, state and municipal laws and regulations, of SERS assets ("Fund"). This IPS defines the investment policies for the management and oversight of the Fund for SERS.

The guiding principles with respect to the investment of the Fund are to preserve the ability for the Fund to meet its long-term liabilities within prudent risk parameters. Toward that end, the Fund has established the following goals:

- 1) Accumulate sufficient assets through a diversified portfolio of investments to pay all current and future retirement benefits and expense obligations of the Fund.
- 2) Establish an asset allocation policy that is expected to meet the required rate of return over long periods of time while minimizing volatility.
- 3) Minimize the costs associated with implementation of the asset allocation through the efficient use of resources.
- 4) Operate solely in the interest of the participants and beneficiaries and for the exclusive purpose of providing benefits to the participants and their beneficiaries and defraying reasonable expenses of administration.
- 5) Seek investment returns and funding policies that will allow for ad hoc increases in retirees' annuities so as to maintain the purchasing power of their benefit.

#### **ROLES AND RESPONSIBILITIES**

The Board, as a fiduciary, is responsible for establishing the IPS, reviewing the IPS as required, and making changes as necessary. The Board is also responsible for selecting and monitoring the investment consultant, investment managers, custodian, auditor, actuary and any other service providers necessary in the fulfillment of this policy and the Fund objectives. Responsibility for day-to-day administration and implementation related to the IPS may be delegated to the Chief Investment Officer (CIO) and/or other SERS staff. Responsibilities of the CIO (and/or SERS staff at the direction of the CIO) include:

- 1) Implementation of the Fund's investment goals, objectives and policies.
- 2) Due diligence, monitoring, and contracting of the Fund's investment managers.
- 3) Due diligence, monitoring, and contracting of the Fund's service providers.
- 4) Make buy/sell decisions to provide for regular liquidity requirements and rebalancing within the asset allocation guidelines.
- 5) Monitoring and evaluating performance results to assure that the policy guidelines are being met.

The Board and staff may also delegate certain responsibilities to professional service providers in various fields. These experts include:

- 1) <u>Investment Consultant.</u> The investment consultant will assist in: 1) establishing investment policy; 2) designing objectives and guidelines; 3) selecting investment managers; 4) reviewing such managers over time; 5) measuring and evaluating investment performance; and, 6) other tasks as deemed appropriate. It is expected that the investment consultant will be selected by the Board and will serve as a co-fiduciary on all investment related decisions and will have the proper insurance to cover exposure.
- 2) <u>Investment Managers.</u> An investment manager has discretion to purchase, sell and/or hold the specific securities that will be used to meet the Fund's investment objectives while observing and operating within all policies, guidelines, constraints, and philosophies as outlined in this statement and in their specific manager guidelines.
- 3) <u>Custodian</u>. The custodian will maintain possession of securities owned by the Fund, collect dividend and interest payments, redeem maturing securities, and effect receipt and delivery following purchases and sales. The custodian will also perform regular accounting of all assets owned, purchased, or sold, as well as movement of assets into and out of the Fund accounts. The custodian will provide at a minimum monthly reporting of assets and transactions and provide any additional data requests.
- 4) <u>Auditor.</u> The auditor will provide an annual review the Fund's books and records, accounting policies, and internal controls to provide an opinion that the financial statements are presented fairly and without material misstatement.
- 5) <u>Actuary.</u> The actuary will provide an annual valuation of the Fund's total pension liability based on the actuarial assumptions approved by the Board.
- 6) <u>Other.</u> Additional specialists may be employed to assist in meeting its responsibilities and obligations to administer Fund assets prudently.

Board and staff do not maintain any control over the individual investment decisions made by the investment managers. The investment managers will be held responsible and accountable to achieve the objectives outlined in their specific investment guidelines as provided in the agreement, prospectus or other such documentation.

All expenses for such experts must be customary and reasonable, and will be borne by the Fund as deemed appropriate and necessary.

#### **INVESTMENT OBJECTIVE**

The investment strategy of the Fund has been established to emphasize total return; that is, the aggregate return from capital appreciation, dividend and interest income, net of any investment management fees. The Fund currently has a long term actuarial expected rate of return of 7.50%. In consideration of this expected return, the primary investment management objectives for the Fund assets shall be to maximize total return over time at an acceptable level of risk and to provide relatively smooth and predictable distributions to the beneficiaries. Additionally, the Fund will be invested according to the following general principles:

- Investments shall be made solely in the interest of and for the beneficiaries of the Fund;
- Investment of the Fund shall be diversified as to minimize the risk of large losses, unless under the circumstances it is prudent not to do so;
- Risk shall be evaluated in the context of the portfolio in its entirety with particular focus on how the various asset classes and investment strategies correlate to one another;

- Care will be taken to provide adequate liquidity to meet all current spending obligations of the Fund;
- Cash is to be employed productively at all times, to provide safety, liquidity, and return; and,
- The investment manager(s) should, at all times, be guided by the principles of "best price and execution" and that the Fund's best interests are the primary consideration.
- Investment management fees shall be reasonable. Fees should be minimized unless additional fees are expected to generate additional returns in excess of the additional fees or to provide additional diversification unavailable in a low-cost, passive investment.

#### ASSET ALLOCATION GUIDELINES

To achieve its investment objectives, the Fund will be allocated among a number of asset classes. These asset classes may be broadly defined to include global fixed income, absolute return, global equity, long/short equity and fixed, special opportunities, commodities and real estate. The purpose of allocating across these asset classes is to ensure the proper level of diversification within the Fund and improve the risk-adjusted efficiency of the investment portfolio. The following table outlines the Fund's target asset allocation along with standard minimum and maximum allocation rebalancing guidelines. Allocations in excess of the standard minimum or maximum require Board approval.

Asset Class	<u>Minimum</u>	<u>Target</u>	<u>Maximum</u>	
Capital Preservation	15%	23%	35%	
Cash	0%	[0%/1%]	5%	
Total Return Bond	5%	9%	15%	
High Yield Bond	3%	5%	8%	
Absolute Return	5%	8%	13%	
<b>Domestic Equities</b>	20%	32%	44%	
Large Cap Equity	15%	21%	28%	
Small/Mid Cap Equity	5%	11%	16%	
International Equities	10%	22%	30%	
Large Cap Equity	10%	15%	20%	
Small/Mid Cap Equity	0%	4%	8%	
Emerging Market Equity	0%	3%	7%	
Long Biased	3%	7%	12%	
Opportunistic Credit	3%	7%	12%	
Real Estate	5%	9%	15%	
Special Opportunities*	0%	0%	10%	

[Add gross tracking error limit?]

#### \* Special Opportunities

This asset class is designed to allow the committee to pursue unique investment opportunities that may fall outside of current asset class descriptions. These opportunities are generally defined by higher expected return potential relative to broad public equity markets. However, they may also include opportunities expected to provide equity-like returns with significantly less risk. Given the variable nature of this opportunity set, the asset class retains a target allocation of 0%, but may be implemented at the discretion of the Board as opportunities present themselves. Funding for the asset class will generally be redirected from the broad public equity allocation.

#### **REBALANCING OF FUND ASSETS**

The asset allocation exposures will be closely monitored with the understanding that the various asset classes may perform differently and that the relative attractiveness of asset classes may vary over time. The Fund's allocation will be reviewed [at each Board meeting or quarterly], as well as during periods of severe market change to assure that allocations remain within their respective guidelines and consistent with the long-term objective of the Fund. If an asset class is outside the allowable range, the Board, or its designee, may take appropriate action to redeploy assets. In any investment rebalancing situation the Board, or its designee, will consider market conditions, costs and other investment related factors. In certain circumstances, when appropriate and at the Board's discretion, the Fund may be allocated outside the ranges provided in the Guidelines.

#### INVESTMENT PERFORMANCE REVIEW AND EVALUATION

Performance reports shall be compiled at least quarterly and presented to the Board for review. The investment performance of the total Fund, as well as the asset class components, will be measured against commonly accepted performance benchmarks. Consideration shall be given to the extent to which the investment results are consistent with the investment objectives, goals, and guidelines as set forth in this statement. The Board recognizes the long term nature of the Fund's objectives and the variability of market returns. Periodic underperformance relative to any criteria outlined in this IPS will not necessitate the termination of an investment option.

As referenced above, the Fund's total account performance objective is to achieve the long-term actuarial rate of return and to minimize the risk of failing to meet this expected return. To that end, managers have been selected based on their perceived ability to meet and or exceed predetermined benchmarks.

The total return of the Fund will be measured against a passive policy index of comparable risk comprised as follows:

Asset Class	<u>Benchmark</u>	<u>Weight</u>
Cash	US 90 Day T-Bill	[0% or 1%]
Total Return Bond	Barclays US Aggregate Bond Index	9%
High Yield Bond	Barclays US Corporate HighYield Index	5%
Absolute Return	HFRI FOF Conservative Index	8%
Domestic Large Cap Equity	S&P 500 Index	21%
Domestic Small/Mid Cap Equity	Russell 2500 Index	11%
International Large Cap Equity	MSCI ACWI ex-US Index	15%

International Small/Mid Cap Equity	MSCI ACWI ex-US Small Cap Index	4%
Emerging Markets Equity	MSCI EM Free Index	3%
Long Biased	HFRI FOF Composite Index	7%
Opportunistic Credit	HFRI Distressed Restructuring Index	7%
Real Estate	NCREIF – ODCE Index	9%
Special Opportunities	Russell 3000 Index	0%

Additionally, the Board shall compare the performance of each individual investment alternative against the performance of the peer groups, relevant index benchmarks, and the manager's strategic benchmark if it differs from the relevant benchmark. The Board shall track the investment vehicle's performance relative to its benchmark(s), and the degree to which variance in the vehicle's performance can be explained by variance in the performance of the benchmark(s). Initially, indices used for comparison purposes shall include the following:

Notwithstanding this initial designation, the Board may change indices used for comparison if it is determined that a different index provides a more useful or appropriate benchmark for any designated investment vehicle.

If the net of fee performance of an actively managed investment option lags significantly behind that of the representative benchmark index over a trailing five year period and the option's performance places it significantly below category averages, the Board may designate the option as "on watch" and, in so doing, shall endeavor to investigate why the option's relative performance has lagged; and determine whether the option continues to be an appropriate investment for the Fund.

If a statistical analysis of an indexed/passively managed investment option indicates that the option is not performing similarly to its benchmark, the Board may designate the option as "on watch" and, in so doing, shall endeavor to investigate why the invest performance has varied from the benchmark; and determine whether the option continues to be an appropriate investment for the Fund.

In addition to net investment performance, the Board will also review the investment products' risk characteristics in relation to that performance. Risk will be measured in various ways including, but not limited to:

- Standard deviation
- Risk/return ratios such as Sharp or Treynor Ratios
- Up market and down market performance
- Other statistical measures such as Beta and Alpha
- Style drift

The investment options will also be monitored on an ongoing basis for material changes such as personnel departures, research capability adjustments, organizational changes, or alterations in investment style, philosophy, or strategy, as well as adherence to stated guidelines.

#### **MANAGER SELECTION**

To facilitate the Board's manager selection decisions, the Consultant and Staff will present a formal search, with recommendations, for all new and replacement investment managers or funds. Initial due diligence should include a review of the investment philosophy, process, team, and performance record. Risks posed by a concentrated exposure to a single investment manager or co-investor will also be evaluated. Additional due diligence should be conducted for investments in new asset classes, firms with limited track records, or limited partnerships to evaluate any idiosyncratic risks the investment may pose, which may include interviewing key personnel, legal review, and on-site due diligence.

#### **INVESTMENT POLICY REVIEW**

To assure continued relevance of the guidelines, objectives, financial status and capital market expectations as established in this statement of investment policy, the Board will review the IPS annually, or more frequently if conditions warrant.

# Spokane Employees' Retirement System (SERS) Board Meeting Minutes July 27, 2016

The regular monthly meeting was called to order at 1:31 p.m. in the 5<sup>th</sup> Floor Conference Room at City Hall.

**Present:** Mike Coster, Mike Cavanaugh, Jim Tieken, Breean Beggs, Dean Kiefer,

and Brian Brill

**Staff:** Phill Tencick, Christine Shisler, Donald Brown, and Tim Szambelan

**Guests:** Joe Cavanaugh, Natalie Hilderbrand, Richard Czernik, and John Bjork,

#### Minutes of the June 29, 2016 Meeting

Mike Cavanaugh moved and Jim Tieken seconded the motion to approve the minutes of the June 29, 2016 meeting. The motion passed unanimously.

#### <u>Director's Report</u> <u>Service Retirements</u>

	Retirement	Years of

Kenneth A. Esperas	07/02/2011	64	07/12/2016	E Option Continues

Vesting and death information provided to the Board for informational purposes.

Breenan Beggs arrived at 1:36 p.m.

#### Expenditure Summary Report – June 2016

The Expenditure Summary Report was presented to the Board and discussed.

Jim Tieken moved and Mike Cavanaugh seconded the motion to approve the June 2016 Expenditure Summary Report. The motion passed unanimously.

#### Schedule of Investments – June 2016

The monthly investment report was presented to the Board for review. The estimated market value of the SERS portfolio on June 30, 2016 was \$269.7 million, with an estimated rate of return for the month of -0.43%. The July pension payments were funded by a cash distribution from the OrbiMed Royalty Opportunities I investment and excess cash resulting from decreased allocation to cash.

#### Other Business

Mr. Tencick gave an update on the implementation of the new asset allocation. A spreadsheet was provided showing the investments as of June 30 and the subsequent trades. The implementation began on July 1, 2016 and was substantially completed except for two more trades scheduled to take place on July 29 and September 30.

Also enclosed in the packets was a draft slide for the City's Finance Committee updates. Mr. Tencick prepared the slide for the Finance Committee that showed the financial impact of the Plan, its funding ratio and investment performance.

Mr. Tencick informed the Board that staff will be putting together an RFP for actuary services and asked if any members of the Board desired to be part of the review committee. Mike Cavanaugh, Jim Tieken and Dean Kiefer stated that they would like to be part of the committee. A draft RFP will be presented to the Board before release to the public.

Mr. Tencick informed the Board that as the Audit is complete staff should have the Annual Report ready for the August Board Meeting.

An update was given on the temp-seasonal Memorandum of Understanding (MOU) and is expected to be completed shortly.

#### **Fiduciary Training**

Mr. Szambelan led a presentation on the Board's roles and responsibilities to the Plan as fiduciaries.

There being no other business, the meeting adjourned at 2:23 p.m.

Phillip Tencick, Retirement Director

## **Current Payroll Process**

## **US Bank Payroll Process**

# US BANK PENSION PAYMENT PROCESSING BUSINESS CASE

SERS Board Meeting August 31, 2016

# Participant Impact

## <u>Advantages</u>

- Expanded toll-free customer support hours
- No difference to participant payment timing or method

## <u>Disadvantages</u>

- Multiple points of contact
- May lose monthly advice or format change

# Operational Impact

## <u>Advantages</u>

- Streamlines payment processing
- Eliminate manual processes
  - Monthly advice reconciliation
  - Annual 1099R printing and scanning
- Removes need for PeopleSoft customizations

## <u>Disadvantages</u>

- Requires participant data reconciliation
- Communication effort required
- Staff training on new system
- Increased liquidity management

# Financial Impact

## **Costs**

Item	Annual Cost
Checks	\$3,660
ACH Payments	\$32,904
Advices (Optional)	\$17,328
Lump Sum Payments	\$360
IT Resources	TBD
Initial Costs	TBD
Total	\$51,826 + TBD

## **Benefits**

Item	Annual Savings
Postage	\$8,635
Advice Stock	\$2,426
1099R Forms	\$332
Death Audit	\$1,080
Cash Drag	\$53,239
StaffTime	\$863
IT/Payroll Time	TBD
Total	\$66,575 + TBD

## Next Steps

- SERS Board approval
- •LEOFF Fire and Police concurrence and coordinated implementation plan
- Contract amendment
- Transition plan (min 90 days)
- Data testing
- Parallel processing testing
- Participant communication
- •Go live January 31, 2017
  - Mid-year implementation requires two 1099R's

# Summary

- Impacts
  - Participant: Neutral
  - Operational: Positive
  - Financial: Neutral
- •Recommend moving forward with transition to US Bank as pension payment provider

#### **Actuary RFP Proposed Timeline**

Ite	m	<b>Estimated Completion</b>
1)	Issue RFP	Tuesday, September 6
2)	RFP Responses Due	Friday, September 23
3)	RFP Scoring Completed	Week of October 10-14
4)	Finalist Presentations	Early November
5)	Contract Award	Wednesday, December 7
