PERFORMANCE

Past performance is not indicative of future results. Investments in securities involve the risk of loss. All returns greater than one year are annualized. The U.S. Dollar is the currency used to express performance and valuation. Returns are presented gross and net of actual management fees and include the reinvestment of all dividends and other income. Our standard fee schedule as well as additional information about our business, is contained in our Form ADV, Part 2A.

Information contained herein was obtained from sources believed to be reliable but accuracy cannot be guaranteed.

A WORD ON RISK

Investing in securities involves risk of loss that clients should be prepared to bear. Equity securities can be affected by macro-economic and other factors affecting the tock market including: changes in a particular company's financial condition unfavorable or unanticipated poor performance of a particular issuer; and changes to investor sentiment, among other things.

Securities with smaller market capitalizations tend to be more volatile and less liquid than securities with larger market capitalizations.

The following environments may cause the Small Cap Growth strategy to underperform the benchmark:

- Periods of very strong index performance;
- Period when companies with low stock price, low or now earnings, low market capitalizations, low return on equity (ROE), etc. are performing well;
- Period when biotechnology industry stocks perform well. The vast majority of these companies do not have earnings and may never heave earnings, and do not score well in our process; biotechnology stocks are underrepresented in our portfolios.

This material is not financial advice or an offer to sell any product. Not every client's account will have these exact characteristics. The actual characteristics with respect to any particular account may vary based on a number of factors including but not limited to: (i) account structure; (ii) the size of the account; (iii) investment restrictions applicable to the account, if any; and (iv) market exigencies at the time of investment. BCC reserves the right to modify its current investment strategies and techniques based on changing market dynamics or client needs. Clients should rely on quarterly reports provided by BCC for information relating to a specific account.

The information provided in this report should not be considered a recommendation to purchase or sell any particular security. The data is current as of date listed, and is subject to change without notice. There is no assurance that any securities discussed herein will remain in the account's portfolio at the time you receive this report or that securities sold have not been repurchased. The securities discussed may not represent an account's entire portfolio and in the aggregate may represent only a small percentage of an account's portfolio holdings. It should not be assumed that any of the securities holdings or sectors represented in this document were or will prove to be profitable, or that the investment recommendations or decision we make in the future will be profitable or will equal the investment performance of the securities discussed herein.

Spokane Employees' Retirement System (SERS) Board Meeting Minutes February 28, 2018

The regular monthly meeting was called to order at 12:03 p.m. in the 5th Floor Conference Room at City Hall.

Present: Mike Coster, Jim Tieken, Mike Cavanaugh, Dean Kiefer, and J.D.

Morscheck

Absent: Candace Mumm and Brian Brill

Staff: Phill Tencick, Christine Shisler, Donald Brown, and Tim Szambelan

Guests: Jayson Davidson, Joe Cavanaugh, Joan Hamilton, Bob Olsen, Dave

Hanshaw, Lee Ann Reid, Michael Roberts, Natalie Hilderbrand, Jon

Barnhart, and John Bjork.

Hyas Group, 2017 4th Quarter Investment Performance Report

Mr. Davidson presented the Fourth Quarter 2017 Performance Report and discussed general economic trends as well as recent bouts of market volatility. The Board reviewed overall portfolio performance and individual fund holdings relative to policy benchmarks. The portfolio enjoyed a strong year overall with a return of 15.4% for 2017 that exceeded its benchmark by 9 basis points. The Fund's watch status managers: Jackson Square Large Cap Growth, MFS Blended Research Core Equity, Berens Global Value, Vanguard Mid Cap Growth, and the OrbiMed Partners II will remain on watch. The OrbiMed product did post a strong 2017 number, though the fourth quarter was disappointing. OrbiMed remains on firm-wide watch for qualitative reasons.

Hyas Group will review recent asset outflows as well as total assets under management for the Jackson Square Large Cap Growth Fund and will provide this information at the next quarterly meeting.

An update on Berens was presented to the Board. Hyas Group reported a high-level personnel change at Berens that was announced during first quarter 2018, and they provided a memorandum on the subject of Fred Brochin's departure. This personnel change is coupled with the Fund's overall performance weakness. The firm's founders have assumed the vacant investment management roles and further organizational changes are expected. Hyas and staff recommended a full redemption of the fund. Notice of redemption was given to Berens and it is expected that most of the assets will be available for reinvestment in late July. Hyas Group will be assembling a manager search document to include potential emerging market replacement candidates. The Berens Global Value Fund will remain on watch until it is replaced.

Jim Tieken moved and Mike Cavanaugh seconded the motion to affirm the redemption of Berens Global Value that was recommended by Hyas Group and staff. The motion passed unanimously.

Dean Kiefer arrived at 12:42 p.m.

Mr. Davidson and the Board discussed the Fund's manager searches expected in the upcoming year. An emerging markets equity manager search will begin immediately to replace Berens Global Value Fund. The opportunistic credit search will be relaunched following key personnel turnover at Angelo Gordon subsequent to Board approval but before the subscription was finalized. The private real estate investments, in general, are mature and we are expecting to get large portions of capital back over the next several quarters, which will warrant a search in the second half of the year.

For the performance report, Mr. Davidson will look into the conflicting performance numbers within the long-biased space for the overall asset class and underlying manager performance. Mr. Davidson will also evaluate the category specifications for the OrbiMed Royalty Opportunities II product.

Investment Policy Statement Review

The Board engaged in the annual review of the SERS Investment Policy Statement. Hyas Group and staff did not recommend any changes to the Investment Policy since the last update in December 2016.

Jim Tieken moved and Mike Cavanaugh seconded the motion to approve the Investment Policy Statement with no changes as recommended. The motion passed unanimously.
